

Amendments to the Abstract:

Please insert the following abstract beginning on a new page 105:

The invention relates to substituted pyrroles of formula (I)

, in which R^1 represents $-OR^8$ or $-NR^9R^{10}$; R^2 represents H, optionally substituted (C_1-C_6) alkyl, or optionally substituted aryl; R^3 , R^4 , R^5 , and R^6 independently of one another represent H or (C_1-C_6) alkyl; and R^7 represents an optionally substituted 3- to 12-membered carbocycle. The invention also relates to a method for producing these pyrroles, and to methods for their use for the treatment and/or prophylaxis of diseases, notably to their use as antiviral agents, in particular against cytomegaloviruses.
